

Merry Christmas

Dear Colleagues,

Welcome to the Asian Australasian Advanced Course in Paediatric Neurosurgery Masterclass. This special two half day anniversary course will provide case-based lectures on key learning points across a spectrum of paediatric neurosurgical conditions. Following these opportunity will be given to participants to be involved in case discussions led by the faculty.

This virtual masterclass is open to all previous participants of the AAACPN courses. To enable meaningful discussions amongst participants registrations will be limited to the first 75 applicants.

On behalf of the faculty, we warmly invite you to register and look forward to seeing many of you online.
