AASPN 2023 Program

Thema: Controversies in Pediatric Neurosurgery

Invited Lecture: Neurofluid

AASPN 10th Anniversary Session

- AASPN in the Global Pediatric Neurosurgery
- Memories of ISPN Comrades for AASPN
- Mami Yamasaki Memorial Session: Woman Pediatric Neurosurgeons in Asia-Australasia

Symposium

1. Neonatal Intraventricular Hemorrhage and Hydrocephalus
2. Infantile Hydrocephalus
3. Plagiocephaly: Positional or Syndromic?
4. Intracranial Cystic Lesion
5. Pediatric Chiari Type 1: What is the Best Practice?
6. Non-accidental Head Injury in Children
7. Tethered Cord Syndrome: When and How to Operate?
8. Pediatric Hypertonia
9. Ventriculo-peritoneal Shunt
10. Moyamoya Disease: What is the Best Practice?
11. Intraoperative Neurophysiological Monitoring

Educational Session: From Basic to Advanced Management

- Neuroendoscopic Tumor Surgery
- Neurosurgical Management of Spina Bifida
- Pediatric Epilepsy
- Complex Craniosynostosis

The Japanese Guideline of Pediatric Brain Tumors

- Diffuse Intrinsic Pontine Glioma
- Germ Cell Tumors
- Medulloblastoma
- Ependymoma
- Optic / Hypothalamic Glioma

Special Session: Controversies in Surgical Management of Pediatric Brain Tumors

- Craniopharyngioma
- Diffuse Intrinsic Pontine Glioma
- Incidentaloma (Low Grade Glioma)

Special Lecture 1 & 2**Lunch with Experts / Meet Experts**

- Epilepsy Management in Tuber Sclerosis Complex
- Intravascular surgery
- Surgery for Pediatric Deformative Craniovertebral Junction Lesions

General Topics

1. Antenatal Diagnosis / Treatment
2. Craniovertebral Junction Lesion / Surgery
3. Dysraphism
4. Epilepsy
5. Functional
6. Global Pediatric Neurosurgery
7. Hydrocephalus
8. Infection
9. Innovation and Technology
10. Neurotrauma / Critical care
11. Neuro-oncology
12. Peripheral Nerve
13. Spine
14. Vascular
15. Others

(Abstracts are able to be submitted to “Symposium” and “General Topics”)
